

IUPAC2025

Kuala Lumpur Convention Centre, Malaysia

53rd IUPAC General Assembly (53GA)
12th - 16th July 2025

50th World Chemistry Congress (50WCC)
14th - 19th July 2025

Cluster I: ANALYTICAL & FORENSIC

The Analytical and Forensic Science stream of the World Congress is attracting a world leading group of international speakers who are all experts in their fields of specialism. The event is being actively supported by members of the Analytical Chemistry Division of IUPAC including Aura Tintaru (France), Patricia Forbes (South Africa), Slavica Razic (Serbia) and Brynn Hibbert (Australia), who are all providing Keynote presentations. We encourage analysts, local and international, to attend and contribute to what is going to be a stimulating and informative event. We welcome proposals for oral and poster presentations

Other world leading presenters include:

Professor Luisa Torsi

Dr Raychelle Burks

Professor Hongmei Li
