

IUPAC2025

Kuala Lumpur Convention Centre, Malaysia

53rd IUPAC General Assembly (53GA)

12th - 16th July 2025

50th World Chemistry Congress (50WCC)

14th - 19th July 2025

IUPAC Contributions and Green Chemistry Innovations towards Sustainable Development

IUPAC, as a world leader in the chemical sciences, has responded to current global needs to address sustainable development. This symposium will provide a platform to bring together expert researchers and industrial leaders to exchange new ideas and explore strategies for promoting green chemistry, sustainable technologies, carbon neutrality, & more.

Organized by

Keynote Speakers

Javier Pérez-Ramírez
ETH, Switzerland

Zhimin Liu
ICCAS, China

Philip Jessop
Queen's U, Canada

**Abstracts
due April 30,
2025**
