

IUPAC2025

Kuala Lumpur Convention Centre, Malaysia

53rd IUPAC General Assembly (53GA)

12th - 16th July 2025

50th World Chemistry Congress (50WCC)

14th - 19th July 2025

**We are pleased to invite you to the
SDG 13 Climate Action Thematic Session
this IUPAC 2025!**

**SUBMIT
YOUR
ABSTRACT
TODAY!**

Meet Our Eminent Speakers:

Dr Philip is attached to Forest Research Institute Malaysia (FRIM) for the last 33 years. During her tenure, she undertook work in biodiversity, urban forestry and climate change.

She was later seconded to the Ministry to develop the policy approaches for REDD+ implementation. Dr Elizabeth Philip has more than 25 years' experience in greenhouse gas accounting and climate change. Her core expertise in the land sector accounting has developed innovative financing mechanism for the forestry sector through the REDD Plus mechanism for Malaysia. Dr Philip has actively participated in many discussions relating to climate change, both at home and abroad as well in a number of regional and international committees. She served in several boards, local and international level. Currently, she chairs the Technical Working Group for National Greenhouse Gas Inventory for the reporting to UNFCCC. She is an UNFCCC expert reviewer.

Dr. Elizabeth Philip

Head of Climate Change & Environment Programme/ Forest Research Institute Malaysia

Dr Salmaan is the Founding President of the Malaysian Society of Toxicology. In his current position at PETRONAS, he leads a dynamic team of technical professionals and executives across four core sections

Environment & Natural Resource Management, Greenhouse Gas Management, Social Performance, and Product Stewardship & Toxicology. In addition, Salmaan is an Adjunct Professor at the Department of Environmental Health Sciences, Yale School of Public Health since 2019. He has previously held senior academic and governmental positions including Professor of Toxicology and Dean of the Faculty of Health Sciences, Universiti Kebangsaan Malaysia and Director, Melaka Biotechnology Corporation. Salmaan obtained a PhD in Biochemical Toxicology from the MRC Toxicology Unit, University of Leicester, England in 1997 and Bachelor of Science in Pharmacology from Universiti Kebangsaan Malaysia in 1991. He is a Diplomate of the American Board of Toxicology and a European Registered Toxicologist. He is also a Fellow of the Academy of Sciences Malaysia. He will speak to us on Life Cycle Thinking on Chemical Stewardship.

Dr. Salmaan Inayat-Hussain

Head of the Environment, Social Performance, and Product Stewardship Department, Group Health, Safety and Environment/PETRONAS
