Symposium on SDG2-Zero Hunger (Food Chemistry and Agriculture)

International Union of Pure & Applied Chemistry (IUPAC) 50th World Chemistry Congress

Kuala Lumpur Malaysia

14th-19th July 2025

Call for Paper

Introduction

Goal 2 – Zero Hunger of the Sustainable Development Goals of the United Nations is intended to achieve a world free of hunger by 2030. The issues of hunger and food insecurity have become alarming because of the occurrence of pandemic, conflict, climate change, and deepening inequalities. Extreme hunger and malnutrition hinder sustainable development and creating a trap that people cannot easily escape. A multi-dimensional approach is required to achieve food security. This includes social protection, safeguarding safe and nutritious food so that one can transform the food and agriculture systems, eventually achieving an inclusive and sustainable world.

Aims of Symposium

The aim of this Symposium is to provide a platform to change the perspective on increasing food security by making sustainable agriculture and food choices, supporting good nutrition, and fighting food wastes. With a platform of discussions, other stakeholders including businesses and governments can obtain enough information to make choices and changes in food security practices, which will make Zero Hunger globally a reality. This symposium is organized in conjunction with the prestigious IUPAC Conference 2025 where participants have the opportunity to attend 12 plenary lectures and more than 20 seminars in different areas.

Main topics of focus of the Symposium:

Food security, food safety and quality, food waste management, food chemistry and nutrition, food contaminations and analysis, agriculture and sustainability

Who should attend:

This Symposium is aimed to invite local and international participations from researchers, educators, students and various stakeholders such as governmental organisations, food industry and business players and professionals involving in the food security and agriculture sectors.

Venue: Kuala Lumpur Convention Centre, Malaysia
